

Dental Sleep Medicine: It's Not Difficult... It's Just Different

Corporate Lakes Education Center | Overland Park, KS
April 13-14, 2018

Description

Current estimates show that as many as 26% of the U.S. population are at high risk for sleep apnea. In a typical dental practice with 1700 patients, 446 of them would be high risk candidates. This course will help dentists better understand the opportunity for dental sleep medicine for their practice, and will provide answers to the three major obstacles that practices face: 1) How do I train the entire dental team? 2) How do I obtain a diagnosis? and 3) How do I get paid? Course Instructor, Dr. John H. Tucker will demonstrate that dental sleep medicine isn't difficult, it's just different. He will show you a proven implementation process and put you on the road to success.

Objectives

This weekend course is accredited for 16 CE units and will cover the following topics: Screening for obstructive sleep apnea in the dental practice; How oral appliance therapy (OAT) helps treat obstructive sleep apnea; Oral appliance designs and fabrication; Implementation of systems; Office flow and integration into your dental practice; Documentation, medical billing and reimbursement for the dental practice; Marketing your dental sleep medicine practice; Communicating with physicians and sleep laboratories; Building your dental sleep team for success.

PARTICIPANTS WILL LEARN

- How to build and maintain a solid dental sleep medicine practice
- How to select an oral appliance
- How to communicate with physicians
- An efficient scheduling protocol
- How to bill medical insurance and get paid: It's not about the software!
- How to master case presentations and handle patient objections

Course Instructor: John H. Tucker, DMD

John H. Tucker, DMD, is a leading expert in dental sleep medicine and a Diplomate of the American Academy of Dental Sleep Medicine and the American Academy of Sleep Medicine. His dental practice was one of the first facilities in the nation accredited by AADSM. Dr. Tucker is passionate about educating the dental profession in treatment of the PAP intolerant Obstructive Sleep Apnea patient. He has presented approximately 1700 hours of continuing education on treating the PAP intolerant patient with Oral Appliance Therapy nationally and internationally over the past six years. Dr. Tucker has also published numerous articles regarding Oral Appliance Therapy for OSA patients that are unable to tolerate PAP therapy.
